

The North Carolina Serious Illness Coalition Clinical Practice Work Group presents

THE ROLE OF THE HEALTH INFORMATION EXCHANGE (HIE) IN SUPPORTING INTEROPERABILITY, PATIENT ACCESS AND QUALITY DATA REGISTRIES/REPORTING

FRIDAY, FEBRUARY 26TH FROM 12PM-1PM

NCSI Clinical Practice Forums are held on the 4th Friday of each month

The panel includes:

CHRISTIE BURRIS,

Executive Director of NC HealthConnex

+ Additional Staff

Health information exchange systems have been in development nationwide since a federal law was passed in 2009 to promote the electronic movement and use of health information among health care providers. In 2015, the General Assembly of North Carolina established the state-managed Health Information Exchange Authority to oversee and administer the N.C. Health Information Exchange Network (NCGS 90-414.7). NC HIEA is housed within the N.C. Department of Information Technology's Government Data Analytics Center.

NC HIEA operates North Carolina's state-designated health information exchange, NC HealthConnex, a secure, standardized electronic system in which providers can share important patient health information. Use of this system promotes the access, exchange and analysis of health information. The law also requires that health care providers who receive state funds (e.g., Medicaid, State Health Plan) to connect to NC HealthConnex by certain dates in 2018, 2020 and 2021 to continue to receive payments for services provided (NCGS 90-414.4).

Moderator: Christopher Morrissette,
NCSI Clinical Practice Work Group Leader
