

## 2022: Year in Review

2022 has been a year of change, transition, and progress for the Coalition.

I am so proud and grateful for the great work and advancements made possible by the time and dedication of our members. As we look to 2023, I am excited to continue expansion of the Coalition's reach and impact across the state. In addition to our many workgroup initiatives, we will actively pursue our public policy and legislative agendas, finalize our strategic work plan, and promote a culture of care that prioritizes person-centered quality of life, access, and equity across the age spectrum for those living with serious illness, their families, and their communities.—EXECUTIVE DIRECTOR VIRGINIA SLOCUM
